

I just wanted to speak on behalf of 94.3 KLOVE. They have been an encouraging, uplifting, and supportive help to the community in which I live. The music, speakers, etc. bring out the best in people, and help remind us what truly matters in life - people. If KLOVE were to be displaced by LPFM broadcaster, it would result in a negative impact on the community, and would not serve in the community's best interests.

The community's best interests are served by a radio station that speaks the truth, and focuses on being positive and uplifting. A station that seeks to unite people, and teaches good morals and values to our children. Thank you.
